

DANIEL J SADANANDA

Software Engineer

"Passionate Software Engineer with hands-on experience in MERN Stack development, AWS cloud deployment, and WordPress-based solutions. Currently working at Triune TechMentors LLP, Bangalore, with 7 months of experience in building scalable and responsive web applications. Previously skilled in Java and Unity for game and AR development, now focused on delivering robust full-stack applications by combining modern JavaScript frameworks with cloud-native deployment practices. Continuously learning and adapting to emerging technologies to create impactful and user-centric software solutions."
